

**Listing of Claims:**

1. (currently amended)      A method of selling international travel tickets in combination with duty free items from a single source, comprising the steps of:

    offering to sell to a customer at least one specific international travel ticket at a price below a then current price at which said specific international travel ticket can be purchased from a third party by ~~the~~ said customer, the offer being made over a computer network from said single source;

    simultaneously offering to ~~the~~ said customer at least one specific duty free item at no additional charge provided ~~the~~ that said customer purchases said at least one specific international travel ticket at the offering price, the offer being made over said computer network from said single source;

    acknowledging ~~the~~ said customer's decision to purchase said at least one specific international travel ticket and ~~the~~ said customer's entitlement to said at least one duty free item, the acknowledgment being made over said computer network;

    accepting payment over said computer network from ~~the~~ said customer for said at least one international travel ticket;

    delivering said at least one specific international travel ticket to ~~the~~ said customer;  
and

    advising ~~the~~ said customer of the method of delivery of said at least one specific duty free item to ~~the~~ said customer.

2. (currently amended) The method of claim 1, wherein said step of offering to sell said at least one specific international travel ticket comprises offering to sell one or more of a plurality of specific international travel tickets to a variety of destinations.

3. (currently amended) The method of claim 2, wherein said step of offering said at least one specific duty free item comprises offering to ~~the~~ said customer one or more of a plurality of specific duty free items to ~~the~~ said customer.

4. (currently amended) The method of claim 3, wherein the step of offering to ~~the~~ said customer one or more of a plurality of specific duty free items comprises offering specific duty free items having differing assigned values, and wherein the specific duty free items offered to ~~the~~ said customer at no additional charge have a predetermined maximum assigned value which is dependent on the price of said at least one specific international travel ticket selected for purchase by ~~the~~ said customer.

5. (currently amended) The method of claim 4, further comprising the steps of said customer selecting at least one specific international travel ticket from among said plurality of specific international travel tickets and selecting at least one specific duty free item from among said plurality of specific duty free items.

6. (currently amended) The method of claim 1, wherein said step of advising ~~the~~ said customer of the method of delivery of said at least one duty free item comprises advising ~~the~~ said customer that said duty free item will be delivered to ~~the~~ said customer at one

of an international port of departure, an international port of arrival and during international travel, whereby said at least one duty free item qualifies for duty free status.

7. (currently amended)        The method of claim 5, wherein said step of said customer selecting said at least one specific international travel ticket further comprises the step of said customer viewing itinerary and pricing information concerning said plurality of specific international travel tickets by accessing a first web site over a said computer network.

8. (currently amended)        The method of claim 7, wherein said step of said customer selecting said at least one specific duty free item further comprises the step of said customer viewing descriptive information concerning said plurality of specific duty free items by accessing a second web site over a said computer network.

9. (currently amended)        The method of claim 8, further comprising the step of said customer making payment for said at least one specific international travel ticket by providing credit card information to a remote computer over a said computer network.

10. (currently amended)       The method of claim 9, further comprising the step of said customer providing at least one of an address, phone number, email address and a passport number to a remote computer over a said computer network.

11. (currently amended)       A method of selling duty free items in combination with international travel tickets from a single source, comprising the steps of:

offering to sell to a customer at least one specific duty free item at a price below a then current price at which said at least one duty free item can be purchased from a third party by ~~the~~ said customer, the offer being made over a computer network from said single source;

simultaneously offering to ~~the~~ said customer at least one specific international travel ticket at no additional charge provided ~~the~~ said customer purchases said at least one duty free item at the offering price, the offer being made over said computer network from said single source;

acknowledging ~~the~~ said customer's decision to purchase said at least one specific duty free item and ~~the~~ said customer's entitlement to said at least one international travel ticket, the acknowledgment being made over said computer network;

accepting payment over said computer network from ~~the~~ said customer for said at least one duty free item;

advising ~~the~~ said customer of the method of delivery of said at least one specific duty free item to ~~the~~ said customer; and

delivering said at least one specific international travel ticket to ~~the~~ said customer.

12. (currently amended) The method of claim 11, wherein said step of offering to sell said at least one specific duty free item comprises offering to sell one or more of a plurality of specific duty free items.

13. (currently amended) The method of claim 12, wherein said step of offering said at least one specific international travel ticket comprises offering to ~~the~~ said

customer one or more of a plurality of specific international travel tickets to a variety of destinations.

14. (currently amended) The method of claim 13, wherein the step of offering to ~~the~~ said customer one or more of a plurality of specific international travel tickets comprises offering specific international travel tickets having differing assigned values, and wherein the specific international travel tickets offered to ~~the~~ said customer at no additional charge have a predetermined maximum assigned value which is dependent on the price of said at least one specific duty free item selected for purchase by ~~the~~ said customer.

15. (currently amended) The method of claim 14, further comprising the steps of said customer selecting at least one specific duty free item from among said plurality of specific duty free items and selecting at least one specific international travel ticket from among said plurality of specific international travel tickets.

16. (currently amended) The method of claim 11, wherein said step of advising ~~the~~ said customer of the method of delivery of said at least one specific duty free item comprises advising ~~the~~ said customer that said at least specific one duty free item will be delivered to ~~the~~ said customer at one of an international port of departure, an international port of arrival and during international travel, whereby said at least one duty free item qualifies for duty free status.

17. (currently amended) The method of claim 15, wherein said step of said customer selecting said at least one specific duty free item further comprises the step of said customer viewing descriptive and pricing information concerning said plurality of specific duty free items by accessing a first web site over a said computer network.

18. (currently amended) The method of claim 17, wherein said step of said customer selecting said at least one specific international travel ticket further comprises the step of said customer viewing itinerary information concerning said plurality of specific international travel tickets by accessing a second web site over a said computer network.

19. (currently amended) The method of claim 18, further comprising the step of said customer making payment for said at least one specific duty free item by providing credit card information to a first remote computer over a said computer network.

20. (currently amended) The method of claim 19, further comprising the step of said customer providing at least one of an address, phone number, email address and a passport number to a second remote computer over a said computer network.

21. (currently amended) A method of combining the sale of international travel tickets and duty free items to customers from a single source, comprising the steps of:

offering to sell to a customer at a first predetermined price one of ~~an~~ a specific international travel ticket and a specific duty free item, the offer being made over a computer network from said single source;

simultaneously offering to transfer to ~~the~~ said customer the other of ~~an~~ said specific international travel ticket and a said specific duty free item at one of no additional charge or a second predetermined price, the offer being made over said computer network from said single source, wherein a total of said first predetermined price and said second predetermined price is less than the total of a price of said specific international travel ticket if purchased from a third party and a price of said specific duty free item if purchased from a different third party;

acknowledging ~~the~~ said customer's decision to purchase said at least one of ~~an~~ said specific international travel ticket and a said specific duty free item, the acknowledgment being made over said computer network;

acknowledging ~~the~~ said customer's decision to acquire the other of said specific international travel ticket and a said specific duty free item, the acknowledgment being made over said computer network;

accepting payment over said computer network from ~~the~~ said customer for said at least one of said specific international travel ticket and a said specific duty free item and for said other of said specific international travel ticket and a said specific duty free item ~~if said other of said international travel ticket and a duty free item is offered at said second predetermined price, said payment being less than a then current total price at which said customer could purchase said international travel ticket and said duty free item if said customer bought only said international travel ticket from one third party and bought only said duty free item from another third party;~~

delivering said specific international travel ticket to said customer; and

advising ~~the~~ said customer of the method of delivery of said specific duty free item to said customer, whereby said customer acquires both said specific international travel ticket and said specific duty free item at a price less than the price which said customer would pay if said customer bought only said specific international travel ticket from one third party and bought only said specific duty free item from another third party.

22. (currently amended) The method of claim 21, wherein said step of offering to sell to a said customer one of ~~an~~ said specific international travel ticket and a said specific duty free item comprises offering to sell to a said customer one of at least one of a plurality of specific international travel tickets and at least one of a plurality of specific duty free items.

23. (currently amended) The method of claim 22, wherein the step of offering to transfer to ~~the~~ said customer ~~the~~ said other of ~~an~~ said specific international travel ticket and a said specific duty free item comprises offering to transfer to ~~the~~ said customer one of said at least one of a plurality of specific international travel tickets and said at least one of a plurality of specific duty free items.

24. (currently amended) The method of claim 23, wherein the step of offering to transfer to ~~the~~ said customer ~~the~~ said other ~~one~~ of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items at one of no additional charge or a said second predetermined price comprises offering said other one of said specific international travel ticket and said specific duty free item at no

additional charge if said first predetermined price ~~of the one of said international travel ticket and a duty free item selected for purchase by the customer~~ exceeds a predetermined amount and offering said other one of said specific international travel ticket and said specific duty free item at said second predetermined price if said first predetermined price ~~of the one of said international travel ticket and a duty free item selected for purchase by the customer~~ is less than a predetermined amount.

25. (currently amended) The method of claim 24, further comprising the steps of said customer selecting said at least one specific international travel ticket from among said plurality of specific international travel tickets and selecting said at least one specific duty free item from among said plurality of specific duty free items.

26. (currently amended) The method of claim 25, wherein said step of offering to transfer to ~~the~~ said customer ~~the~~ said other of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items at a said second predetermined price when ~~the~~ said first predetermined price ~~of the one of the international travel ticket and a duty free item selected for purchase by the customer~~ is less than a predetermined amount further comprises the step of selecting ~~the~~ said second predetermined price based on the difference between ~~the~~ said first predetermined price and ~~the~~ said first predetermined amount.

27. (currently amended) The method of claim 26, wherein said step of selecting ~~the~~ said second predetermined price ~~based on the difference between said first~~

~~predetermined price and said first predetermined amount~~ comprises increasing the said second predetermined price as the amount by which said first predetermined amount exceeds said first predetermined price increases.

28. (currently amended) The method of claim 21, wherein said step of advising said customer of the method of delivery of said at least one specific duty free item comprises advising said customer that said at least one specific duty free item will be delivered to the said customer at one of an international port of departure, an international port of arrival and during international travel, whereby said at least one duty free item qualifies for duty free status.

29. (currently amended) The method of claim 25, wherein said step of said customer selecting said at least one specific international travel ticket further comprises the step of said customer viewing itinerary and pricing information concerning said plurality of specific international travel tickets by accessing a first web site over a said computer network.

30. (currently amended) The method of claim 29, wherein said step of said customer selecting said at least one specific duty free item further comprises the step of said customer viewing descriptive and pricing information concerning said plurality of specific duty free items by accessing a second web site over a said computer network.

31. (currently amended) The method of claim 29, further comprising the step of said customer making payment for said one of ~~an~~ said specific international travel ticket and a

said specific duty free item by providing credit card information to a remote computer over a said computer network.

32. (currently amended) The method of claim 31, further comprising the step of said customer providing at least one of an address, phone number, email address and a passport number over a said computer network.

33. (currently amended) A method for using a computer to facilitate the combined ~~the~~ sale of international travel tickets and duty free items to customers from a single source, comprising the steps of:

outputting from ~~the~~ said computer to ~~the~~ said customer an offer to sell at a first predetermined price one of ~~an~~ a specific international travel ticket and a specific duty free item from said single source;

outputting from ~~the~~ said computer to ~~the~~ said customer an offer to transfer to ~~the~~ said customer ~~the~~ said other of ~~an~~ said specific international travel ticket and a said specific duty free item at one of no additional charge or a second predetermined price from said single source, wherein a total of said first predetermined price and said second predetermined price is less than the sum of a price of said specific international travel ticket if purchased from a third party and a price of said specific duty free item if purchased from a different third party;

inputting to ~~the~~ said computer from ~~the~~ said customer an offer to purchase at said first predetermined price said at least one of ~~an~~ said specific international travel ticket and a said specific duty free item;

inputting to ~~the~~ said computer from ~~the~~ said customer an offer to acquire ~~the~~ said other of ~~an~~ said international travel ticket and a said duty free item;

outputting from ~~the~~ said computer to ~~the~~ said customer acceptance of ~~the~~ said customer's offer to purchase said at least one of ~~an~~ said specific international travel ticket and a said specific duty free item and to acquire ~~the~~ said other of ~~an~~ said specific international travel ticket and a said specific duty free item;

inputting to ~~the~~ said computer from ~~the~~ said customer information concerning payment of said one of ~~an~~ said specific international travel ticket and a said specific duty free item and for said other of ~~an~~ said specific international travel ticket and a said specific duty free item if said other of ~~an~~ said specific international travel ticket and a said specific duty free item is offered at said second predetermined price, ~~said payment being less than a then current total price at which said customer could purchase said international travel ticket and said duty free item if said customer bought only said international travel ticket from one third party and bought only said duty free item from another third party;~~

delivering said specific international travel ticket to said customer; and

advising said customer of the method of delivery of said specific duty free item to said customer, whereby said customer acquires both said specific international travel ticket and said specific duty free item at a price less than the price which said customer would pay if said customer bought only said specific international travel ticket from one third party and bought only said specific duty free item from another third party.

34. (currently amended) The method of claim 33, wherein said step of outputting from ~~the~~ said computer to ~~the~~ said customer an offer to sell to a said customer one of

~~an~~ said specific international travel ticket and a said specific duty free item comprises offering to sell to a said customer one of at least one of a plurality of specific international travel tickets and at least one of a plurality of specific duty free items.

35. (currently amended) The method of claim 34, wherein the step of outputting from ~~the~~ said computer to ~~the~~ said customer an offer to transfer to ~~the~~ said customer ~~the~~ said other of ~~an~~ said specific international travel ticket and a said specific duty free item comprises offering to transfer to ~~the~~ said customer one of said at least one of a plurality of specific international travel tickets and said at least one of a plurality of specific duty free items.

36. (currently amended) The method of claim 35, wherein the step of outputting from ~~the~~ said computer to ~~the~~ said customer an offer to transfer to ~~the~~ said customer ~~the~~ said other one of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items at one of no additional charge or a said second predetermined price comprises offering said other one of said specific international travel ticket and said specific duty free item at no additional charge if said first predetermined price of ~~the one of said international travel ticket and a duty free item selected for purchase by the customer~~ exceeds a predetermined amount and offering said other one of said specific international travel ticket and said duty free item at said second predetermined price if said first predetermined price of ~~the one of said international travel ticket and a duty free item selected for purchase by the customer~~ is less than a predetermined amount.

37. (currently amended) The method of claim 36, wherein said step of outputting from said computer to said customer an offer to transfer to ~~the~~ said customer ~~the~~ said other of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items at a said second predetermined price when ~~the~~ said first predetermined price ~~of the one of the international travel ticket and a duty free item selected for purchase by the customer~~ is less than a said predetermined amount further comprises the step of selecting ~~the~~ said second predetermined price based on the difference between ~~the~~ said first predetermined price and ~~the~~ said first predetermined amount.

38. (currently amended) The method of claim 37, wherein said step of selecting ~~the~~ said second predetermined price based on the difference between said first predetermined price and said first predetermined amount comprises increasing said second predetermined price as the amount by which said first predetermined amount exceeds said first predetermined price increases.

39. (currently amended) The method of claim 34, wherein said step of outputting from said computer to said customer an offer to sell said one of said at least one of a said plurality of said specific international travel tickets and said at least one of a said plurality of said specific duty free items comprises outputting from said computer to ~~the~~ said customer at least one of itinerary and pricing information concerning said plurality of specific international travel tickets and descriptive and pricing information concerning said plurality of specific duty free items.

40. (currently amended) The method of claim 39, wherein said step of outputting from said computer to said customer at least one of itinerary and pricing information ~~concerning said plurality of international travel tickets and descriptive and pricing information concerning said plurality of duty free items~~ comprises the step of outputting from said computer to said customer both itinerary and pricing information concerning said plurality of said specific international travel tickets and descriptive and pricing information concerning said plurality of said specific duty free items.

41. (currently amended) The method of claim 40, wherein said step of inputting to ~~the~~ said computer from ~~the~~ said customer information concerning payment further comprises the step of said customer inputting credit card information to ~~the~~ said computer.

42. (currently amended) The method of claim 41, wherein said ~~steps~~ step of ~~said steps~~ requiring said customer to input information to ~~the~~ said computer comprises said customer inputting said information to said computer over a computer network.

43. (currently amended) A system for facilitating the combined sale of international travel tickets and duty free items to customers from a single source, comprising:

a storage device, said storage device storing a computer program and data concerning a plurality of specific international travel tickets and a plurality of specific duty free items; and

a processor connected to ~~the~~ said storage device and operative in response to ~~the~~ said program to

output to a customer an offer to sell at a first predetermined price one of ~~an~~ a specific one of said plurality of specific international travel ~~ticket~~ tickets and a specific one of said plurality of specific duty free ~~item~~ items from said single source;

output to ~~the~~ said customer an offer to transfer ~~the~~ said other of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items at one of no additional charge or a second predetermined price from said single source, wherein a total of said first predetermined price and said second predetermined price is less than the sum of said price of said specific one of said plurality of specific international travel tickets if purchased from a third party and a price of said specific one of said plurality of specific duty free items if purchased from a different third party;

receive from ~~the~~ said customer an offer to purchase at said first predetermined price said at least one of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items;

receive from ~~the~~ said customer an offer to acquire ~~the~~ said other of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items;

output to ~~the~~ said customer acceptance of ~~the~~ said offer to purchase said at least one of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items and to acquire ~~the~~ said other of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items; and

receive from ~~the~~ said customer information concerning payment ~~of~~ for said one of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items and for said other of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items if said other of ~~an~~ said specific one of said plurality of specific international travel ~~ticket~~ tickets and a said specific one of said plurality of specific duty free ~~item~~ items is offered at said second predetermined price, ~~said payment being less than a then current total price at which said customer could purchase said international travel ticket and said duty free item if said customer bought only said international travel ticket from one third party and bought only said duty free item from another third party.~~

44. (currently amended) The system of claim 43, wherein said processor is operative in response to said program to output to a said customer an offer to sell one of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items.

45. (currently amended) The system of claim 44, wherein said processor is operative in response to said program to output to a said customer an offer to transfer to the said customer ~~the~~ said other of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items.

46. (currently amended) The system of claim 45, wherein said processor is operative in response to said program to output to a said customer an offer to transfer to said customer said other of said at least one of said plurality of specific international travel ~~ticket~~ tickets and said at least one of said plurality of specific duty free ~~item~~ items at no additional charge if said first predetermined price ~~of the one of said international travel ticket and a duty free item selected for purchase by the customer~~ exceeds a predetermined amount and offering said other ~~one of said~~ at least one of said plurality of specific international travel ~~ticket~~ tickets and said at least one of said plurality of specific duty free ~~item~~ items at said second predetermined price if said first predetermined price ~~of the one of said international travel ticket and a duty free item selected for purchase by the customer~~ is less than a said predetermined amount.

47. (currently amended) The system of claim 46, wherein said processor is operative in response to said program to output to a said customer an offer to transfer ~~the~~ to said customer said other of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items at a said second predetermined price when the said first predetermined price ~~of the one of the international travel ticket and a duty free item selected for purchase by the customer~~ is less than a predetermined amount and wherein said processor is operative in response to said program to select ~~the~~ said second predetermined price based on the difference between ~~the~~ said first predetermined price and ~~the~~ said first predetermined amount.

48. (currently amended) The system of claim 47, wherein said processor is operative in response to said program to select ~~the~~ said second predetermined price by increasing ~~the~~ said second predetermined price as the amount by which said first predetermined amount exceeds said first predetermined price increases.

49. (currently amended) The system of claim 44, wherein said processor is operative in response to said program to output to a said customer at least one of itinerary and pricing information concerning said plurality of specific international travel tickets and descriptive and pricing information concerning said plurality of specific duty free items.

50. (currently amended) The system of claim 49, wherein said processor is operative in response to said program to output to a said customer both itinerary and pricing information concerning said plurality of specific international travel tickets and descriptive and pricing information concerning said plurality of specific duty free items.

51. (currently amended) The system of claim 50, wherein said processor is operative in response to said program to receive from a said customer information concerning a credit card.

52. (currently amended) The system of claim 43, wherein said processor communicates with said customer over a computer network.

53. (currently amended) The system of claim 51, wherein said processor communicates with said customer over a computer network.

54. (currently amended) A system for facilitating the combined sale of international travel tickets and duty free items to customers from a single source, comprising:

a first computer operated by a consumer and operatively connected to a first device for transmitting data over a computer network; and

a second computer operated by a seller and operatively connected to a second device for transmitting data over a said computer network, said second computer including a storage device storing a computer program and data concerning a plurality of specific international travel tickets and a plurality of specific duty free items, and a processor operatively connected to ~~the~~ said storage device and operative in response to ~~the~~ said program to

transmit to ~~the~~ said first computer over a said computer network an offer to sell at a first predetermined price at least one of an a specific international travel ticket and a specific duty free item from said single source;

transmit to ~~the~~ said first computer over a said computer network an offer to transfer the other of said at least one of said specific an international travel ticket and a said specific duty free item at one of no additional charge or a second predetermined price from said single source, wherein a sum of said first predetermined price and said second predetermined price is less than the total of a price of said specific international travel ticket if purchased from a third party and a price of said specific duty free item if purchased from a different third party;

receive from ~~the~~ said first computer over a said computer network an offer to purchase at said first predetermined price said at least one of ~~an~~ said specific international travel ticket and a said specific duty free item;

receive from ~~the~~ said first computer over a said computer network an offer to acquire ~~the~~ said other of ~~an~~ said at least one of said specific international travel ticket and a said specific duty free item;

transmit to ~~the~~ said first computer over a said computer network acceptance of the said offer to purchase said at least one of ~~an~~ said specific international travel ticket and a said specific duty free item and to acquire ~~the~~ said other of ~~an~~ said specific international travel ticket and a said specific duty free item; and

receive from ~~the~~ said first computer over a said computer network information concerning payment ~~of~~ for both said ~~one of an~~ specific international travel ticket and a said specific duty free item, ~~and for said other of an international travel ticket and a said specific duty free item if said other of an international travel ticket and a duty free item is offered at said second predetermined price, said payment being less than a then current total price at which said customer could purchase said international travel ticket and said duty free item if said customer bought only said international travel ticket from one third party and bought only said duty free item from another third party.~~

55. (currently amended) The system of claim 54, wherein said processor in said second computer is operative in response to said program to transmit to a said customer over a said computer network an offer to sell one of at least one of a said plurality of specific international travel tickets and at least one of a said plurality of specific duty free items.

56. (currently amended) The system of claim 55, wherein said processor in said second computer is operative in response to said program to transmit to a said customer over a said computer network an offer to transfer to ~~the~~ said customer ~~the~~ said other of said at least one of a plurality of specific international travel tickets and said at least one of a plurality of specific duty free items.

57. (currently amended) The system of claim 56, wherein said processor in said second computer is operative in response to said program to transmit to a said customer over a said computer network an offer to transfer to said customer said other of said at least one of said specific international travel ticket and said specific duty free item at no additional charge if said first predetermined price ~~of the one of said international travel ticket and a duty free item selected for purchase by the customer~~ exceeds a predetermined amount and offering said other of said at least one of said specific international travel ticket and said specific duty free item at said second predetermined price if said first predetermined price ~~of the one of said international travel ticket and a duty free item selected for purchase by the customer~~ is less than a said predetermined amount.

58. (currently amended) The system of claim 57, wherein said processor in said second computer is operative in response to said program to transmit to a said customer over a said computer network an offer to transfer ~~the~~ to said customer said other of said at least one of a said plurality of specific international travel tickets and said at least one of a said plurality of specific duty free items at a said second predetermined price when ~~the~~ said first predetermined

~~price of the one of the international travel ticket and a duty free item selected for purchase by the customer~~ is less than a said predetermined amount and wherein said processor is operative in response to said program to select ~~the~~ said second predetermined price based on the difference between ~~the~~ said first predetermined price and ~~the~~ said first predetermined amount.

59. (currently amended) The system of claim 58, wherein said processor in said second computer is operative in response to said program to select ~~the~~ said second predetermined price by increasing ~~the~~ said second predetermined price as the amount by which said first predetermined amount exceeds said first predetermined price increases.

60. (currently amended) The system of claim 55, wherein said processor in said second computer is operative in response to said program to transmit to a said customer over a said computer network at least one of itinerary and pricing information concerning said plurality of specific international travel tickets and descriptive and pricing information concerning said plurality of specific duty free items.

61. (currently amended) The system of claim 60, wherein said processor in said second computer is operative in response to said program to transmit to a said customer over a said computer network both itinerary and pricing information concerning said plurality of specific international travel tickets and descriptive and pricing information concerning said plurality of specific duty free items.

62. (currently amended) The system of claim 61, wherein said processor in said second computer is operative in response to said program to receive from said first computer over a said computer network information concerning a credit card.

63. (currently amended) The system of claim 62, further comprising a third computer operatively connected to a third device for transmitting data over a said computer network, said third computer having access to stored information concerning a plurality of credit card accounts and to a program for processing credit card payments for said plurality of credit card accounts, and wherein said processor in said second computer is operative in response to said program in said second computer to transmit to said third computer over a said computer network information concerning a said credit card received from said first computer, to receive from said third computer over a said computer network acceptance of a credit card transaction, and to transmit to said first computer over a said computer network acknowledgement of a completed credit card transaction.

64. (new) The method of claim 8, wherein said first web site and said second web site are the same web site.

65. (new) The method of claim 18, wherein said first web site and said second web site are the same web site.

66. (new) The method of claim 30, wherein said first web site and said second web site are the same web site.
